

HADLOW DOWN PC – COUNCILLOR UPDATES FOR MTG 3rd AUGUST 2021

Rachel Lewis

Hadlow Down Community Centre (HDCC)

Monthly meetings have now resumed and many positive activities and actions scheduled before Christmas to move the project forward after Covid, and to inform and advise villages about HDCC if they are new to the village, where HDCC currently stands and future plans for the new hall.

A fantastic newspaper about the Community Centre will be delivered to every residence in the village during the next week.

A new feedback form will also be delivered to residents during the next month, asking relevant questions about possible and intended use of the new Hall.

Peter Weston

Highways: Numerous referrals have been made to East Sussex Highways. As a result some remedial works have been carried out (e.g. patching of the layby by Tinkers Park and straightening of the 50 mph roundel at the top of Tinkers Lane), in other cases potholes have been ringed with white marking, and some cases have not met East Sussex Highways criteria (e.g. the surface degradation around four small manholes on the A272 at the top of Wheelers Lane).

Footpaths: A number of concerns have been lodged with East Sussex CC and will be discussed at the forthcoming SLR meeting.

Quarterly Risk Assessment has been carried out and report submitted for consideration at the August meeting.

SID: Work has continued to try to progress installation of a speed indicator display sign. The site licenses have recently been agreed by ESCC and hopefully erection of the poles will take place shortly.

Julian Michaelson-Yeates

1. The risk assessment for the burial ground has been completed.
2. The overgrown verge alongside the pavement on the A272 to Waste Wood has been cut back.
3. Vegetation around the burial ground kissing gate has been cleared to provide greater visibility for pedestrians crossing the A272.
4. An audit of the roads to the west and north of Hadlow down has been completed and more than 40 faults logged with ESCC Highways.
