2. SID: Routine battery changes and data download (every two weeks). An analysis of westbound A272 traffic (30th August to 19th November – 13 weeks) is set out below. I have also been liaising with a number of parties regarding the siting, funding and installation of a third NAL socket by the top entrance to the Church on the A272 (i.e. to capture vehicle speeds entering Hadlow Down from the Buxted direction).
