

HADLOW DOWN PC – COUNCILLOR UPDATES FOR MTG 7th MARCH 2023

Peter Weston

SID: Routine battery changes and data download (every two weeks).

Licenses for a third site for the SID (adjacent to the top entrance to the Church on the A272) were applied for at the beginning of January and have now been granted by ES Highways. The socket for this third site is due to be installed on Wednesday 8th March, and the first cache of data should therefore be available for the April meeting.

The SID is now in School Lane (it is a condition of the licence from ESCC that it is moved periodically). An analysis of northbound traffic is set out below (N.B. due to the proximity to the school the second set of data is for vehicles travelling in excess of 30 mph)..
