

Speed Indicator Sign (SID), third site proposal

The Parish Council (PC) has already agreed to apply for licenses for a third site adjacent to the top entrance to the Church. If the PC were to go ahead a purchase a second SID, the style of sign to be purchased needs to be considered. In order to make most use of existing hardware and software I recommend that the Council purchase from SWARCO, but with a different design in order to maximise impact.

The most recent SWARCO brochure is attached. I recommend style BX-16R088V-SF-DH. The cost would be:

<i>Moveable VAS to B-16a088v-SF/16r088v-SF/16a088v-ST/ 16r088v-ST-DH specification</i>	<i>£2,350.00</i>
<i>12v 22Ah lithium ion batteries (fitted) 2x £295.00</i>	<i>£590.00</i>
<i>Additional 12v 22Ah lithium ion batteries 2x£295.00</i>	<i>£590.00</i>
<i>Wi-fi activation wand</i>	<i>£0.00</i>
<i>Delivery</i>	<i>£100.00</i>
<i>Total</i>	<i>£3,630.00</i>

The PC already owns two posts that can be moved between sites so I do not recommend purchasing a third post (the posts for School Lane and the third site should be removed when not in use).
