

Peter Weston – Activity Report for July 2023 Meeting

Footpath 3b: Investigated a report that one section of the footpath is difficult to navigate (which it is) due to a gully – reported to ESCC (response awaited).

Fingerpost: Temporary repair to the Wheelers Lane finger of the A272 fingerpost; the fingerpost is exhibiting a degree of instability and requires further attention.

SID: Routine battery changes and data download (ever two weeks).

Second SID: This has now been on order for some time. SWARCO continue to say that they are doing everything they can to expedite delivery, but I am very disappointed in their performance.

SID Data: The most recent data collected is summarised below and again shows that the majority of drivers ignore the statutory speed limit.
