

County Councillor Report to Hadlow Down Parish Council December 2023

School Lane Drains

The “concreted” drain in School Lane was re-reported to ESH and the information received is that this is not an ESH drain and that the landowner is responsible for clearing it.

Information on ownership can be found on the land registry site given it has been registered.

Other Drains in School Lane

The problem was also reported to ESH and the drains are programmed to be cleared w/c 4th December (2023) between 8pm and 4.00am

Petition Re traffic speed in village

To confirm what I said at the November meeting.

Any petition should be given to me to present to the Chairman of East Sussex at the next Full Council meeting which is in February. The chairman will forward to the relevant department (Environment, Highways and Transport). It would then come to a Lead Member meeting when the Lead Petitioner and I would be able to speak in support.

Local Transport Plan LPT4

LPT4 is out for consultation with a closing date of February 25th 2024. The plan goes from adoption date to 2050. Available online (preferred) but also hard copies can be requested or also available at East Sussex libraries.

Deer Alert

Accidents involving motorists and deer peak at this time of year. Motorists are asked to be extra vigilant particularly on roads with woods either side.

As I know to my own cost deer can suddenly appear out of nowhere.
