

## Peter Weston – Activity Report for February 2024 Meeting

**SID:** Routine battery changes and data download (every two weeks) – many thanks to Steve Godfrey for his continuing help!

**SID Data:** The most recent data collected is summarised below and again shows most drivers ignore the statutory speed limit. The two signs have been in their current position for two months. The St Mark’s site (eastbound) shows a slight increase in the number of vehicles travelling over 30 mph; the corresponding data for the Wilderness Wood site (westbound) shows a more significant increase – this may have to do with Wilderness Wood being closed during January (and thus the ‘traffic’ calming from vehicles going in and out of the site is almost totally removed).
