

# Speed Indicator Display (SID) Data Summary for December 2025 Meeting

Last month I reported that there had been a software problem with SID 1 (outside Wilderness Wood), this was rectified, and the November data is complete. Unfortunately, SID 2 (by St Mark's Church) also appears to have suffered a software problem, and no data was collected after 06.00 on the 16<sup>th</sup>; I am working to rectify this problem. The two Speed Indicator Signs (SIDs) remained in the same positions as in October.
