GRAVE DIGGING — The Parish Council does not undertake grave digging and the cost is not covered in the above fees. All grave digging must be arranged with the appropriate Funeral Director or with a private contractor. If the grave will be over one metre deep it will need to be shored beforehand. It is illegal for a grave digger to enter an excavation without shoring and to dig ahead of shoring. This again will need to be dealt with by the appropriate Funeral Director or with a private contractor. The plot for cremated remains should be dug deep enough to take 2 remains.
